Giving Back to Society – (Y)our “S” in ESG

AC seeks to be a good corporate citizen by supporting our community through sponsoring local organizations. On August 9, 2023, the Board of Directors approved a \$0.20 per share shareholder designated charitable contribution ("SDCC") for registered shareholders as of October 16, 2023. Based on the program created by Warren Buffett at Berkshire Hathaway, our corporate charitable giving is unique in that the recipients of AC's charitable contributions are chosen directly by our shareholders, rather than by our corporate officers. Since our spin off as a public company, the shareholders of AC have donated approximately \$38 million, including the most recent SDCC, to over 190 501(c)(3) organizations that address a broad range of local, national and international concerns.

Third Quarter Financial Data

- Assets under management ended the quarter at \$1.59 billion versus \$1.75 billion at September 30, 2022.
- Book value was \$41.43 per share compared to \$39.96 per share at September 30, 2022.
- For the first nine months, Investment and other non-operating income was \$37.1 million versus a loss of \$68.8 million in the year-ago period. The \$105.9 million year to date positive change reflects market appreciation in the current period versus a decline in the first nine months of 2022.

Third Quarter Results

Third quarter revenues were \$2.2 million compared to \$2.6 million in the third quarter of 2022. Total operating expenses, excluding management fee, were \$5.7 million in the third quarter 2023 and \$5.7 million in the third quarter 2022.

Net investment and other non-operating income was \$3.8 million for the third quarter, a \$21.6 million change from the \$17.8 million loss in the third quarter of 2022. The primary drivers of this quarter's results included gains from our GAMCO holdings and merger arbitrage partnerships. Interest income reflected higher interest rates in the 2023 quarter as compared to 2022.

There was no management fee in the third quarter of 2023 or 2022. Year to date management fee was \$3.1 million versus none in the prior year.

Our income tax expense of \$0.2 million for the quarter compares to a benefit of \$4.9 million in the year ago quarter. The income tax expense in the 2023 quarter is primarily driven by a deferred tax expense from a foreign investment.

Assets Under Management (AUM)

Assets under management at September 30, 2023 were \$1.59 billion, \$254 million lower than year-end 2022 reflecting net outflows of \$259 million, the impact of currency fluctuations in non-US dollar denominated classes of investment funds (\$11 million), offset partially by market appreciation of \$16 million.

Merger and acquisitions activity increased 16% from the second quarter's levels, reaching \$2 trillion for the year, a decline of 27% compared to 2022 levels but continuing a trend of higher M&A activity in recent quarters. The U.S. remained the dominant geography for deal making as U.S. targets accounted for 44% of deals, an increase compared to 42% in 2022. Deal making has been most vibrant in the Energy & Power industry totaling \$290 billion, and accounting for 14.5% overall, followed by Technology and Healthcare, which accounted for 14.4% and 13.4%, respectively. We believe that despite recent mark-to-market volatility, we remain well positioned to earn absolute returns for our clients.

The Merger Arbitrage strategy is offered by mandate and client type through partnerships and offshore corporations serving accredited as well as institutional investors. The strategy is also offered in separately managed accounts, a Luxembourg UCITS and a London Stock Exchange listed investment company, Gabelli Merger Plus + Trust Plc (GMP-LN).

Acquisitions

Associated Capital Group's plan is to accelerate the use of its capital. We intend to leverage our research and investment capabilities by pursuing acquisitions and alliances that will broaden our product offerings and add new sources of distribution. In addition, we may make direct investments in operating businesses using a variety of techniques and structures to accomplish our objectives.

Operating Loss Before Management Fee

Operating loss before management fee expense represents a non-GAAP financial measure used by management to evaluate its business operations. We believe this measure is useful in illustrating the operating results of the Company as management fee expense is based on pre-tax income before management fee expense, which includes non-operating items including investment gains and losses from the Company's proprietary investment portfolio and interest expense.

(\$ in 000's)	Year-to-date	
	<u>2023</u>	<u>2022</u>
Operating loss - GAAP	\$ (12,125)	\$ (8,646)
Add: management fee expense ⁽¹⁾	<u>3,075</u>	<u>-</u>
Operating loss before management fee - Non-GAAP	<u>\$ (9,050)</u>	<u>\$ (8,646)</u>

(1) Management fee expense is incentive-based and is equal to 10% of Income before management fee and income taxes and excludes the impact of consolidating entities. For the nine months ended September 30, 2023 and 2022, Income before management fee, income taxes and excluding consolidated entities was income of \$30,747 and loss of \$80,369, respectively. As a result, \$3,075 was accrued for the 10% management fee expense in 2023. There was no management fee accrual in 2022 due to the loss in that period.
