**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**June 30, 2023**

**(UNAUDITED)**

**1. Organization**

Unless we have indicated otherwise, or the context otherwise requires, references in this report to “Associated Capital Group, Inc.,” “Associated Capital,” “AC Group,” “the Company,” “AC,” “we,” “us” and “our” or similar terms are to Associated Capital Group, Inc., its predecessors and its subsidiaries.

We are a Delaware corporation that provides alternative investment management, and we derive investment income/(loss) from proprietary investment of cash and other assets in our operating business.

Gabelli & Company Investment Advisors, Inc. (“GCIA”), a wholly-owned subsidiary of AC, and its wholly-owned subsidiary, Gabelli & Partners, LLC (“Gabelli & Partners”), collectively serve as general partners or investment managers to investment funds including limited partnerships and offshore companies (collectively, “Investment Partnerships”), and separate accounts. We primarily manage assets across a range of risk and event arbitrage portfolios and in equity event-driven value strategies. The businesses earn management and incentive fees from their advisory activities. Management fees are largely based on a percentage of assets under management. Incentive fees are based on the percentage of the investment returns of certain clients’ portfolios. GCIA is an investment adviser registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940, as amended (the “Advisers Act”).

*PMV Consumer Acquisition Corp.*

PMV Consumer Acquisition Corp. (“PMV”), a special purpose acquisition corporation, and its sponsor, PMV Consumer Acquisition Holding Company, LLC (“Sponsor”, collectively “Consolidated PMV”) were previously consolidated in the financial statements of AC because AC had a controlling financial interest in these entities. Commencing in August 2022, as a result of management and organization restructuring negotiations at the Sponsor to extend the life of PMV, AC no longer controlled Consolidated PMV. As a result, Consolidated PMV was deconsolidated from the financial statements in August 2022.

*AC Spin-off*

On November 30, 2015, GAMCO Investors, Inc. (“GAMCO” or “GAMI”) distributed all the outstanding shares of each class of AC common stock on a pro rata one-for-one basis to the holders of each class of GAMCO’s common stock (the “Spin-off”).

As part of the Spin-off, AC received 4,393,055 shares of GAMCO Class A common stock for \$150 million. The Company held 2,405,370 shares as of June 30, 2023 and 2,407,000 shares as of December 31, 2022.

*Basis of Presentation*

The unaudited interim condensed consolidated financial statements of AC Group included herein have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by GAAP in the United States for complete financial statements. The unaudited interim condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of financial position, results of operations and cash flows of the Company for the interim periods presented and are not necessarily indicative of a full year’s results.

The interim condensed consolidated financial statements include the accounts of AC Group and its subsidiaries. All material intercompany transactions and balances have been eliminated. The details on the impact of consolidating certain partnership entities on the condensed consolidated financial statements can be seen in Note 4. Investment Partnerships and Other Entities.

These interim condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2022.

*Use of Estimates*

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported on the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

*Recent Accounting Developments*

In June 2016, the FASB issued ASU 2016-13, Accounting for Financial Instruments - Credit Losses (Topic 326) (“ASU 2016-13”), which requires an organization to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Currently, U.S. GAAP requires an “incurred loss” methodology that delays recognition until it is probable a loss has been incurred. Under ASU 2016-13, the allowance for credit losses must be deducted from the amortized cost of the financial asset to present the net amount expected to be collected. The condensed consolidated statements of income will reflect the measurement of credit losses for newly recognized financial assets as well as the expected increases or decreases of expected credit losses that have taken place during the period. In November 2019, the FASB issued ASU 2019-10, which deferred the effective date of this guidance for smaller reporting companies for three years. This guidance is effective for the Company on January 1, 2023. We adopted this standard on January 1, 2023 and the adoption of this standard did not have a material impact on our financial condition or results of operations.

In January 2017, the FASB issued ASU 2017-04, Intangibles - Goodwill and Other, to simplify the process used to test for impairment of goodwill. Under the new standard, an impairment loss must be recognized in an amount equal to the excess of the carrying amount of a reporting unit over its fair value, limited to the total amount of goodwill allocated to that reporting unit. As a smaller reporting company pursuant to ASU 2019-10, the ASU is effective for the Company on January 1, 2023. We adopted this standard on January 1, 2023 and the adoption of this standard did not have a material impact on our financial condition or results of operations.

**2. Revenue**

### 4. Investment Partnerships and Other Entities

The Company is general partner or co-general partner of various affiliated entities whose underlying assets consist primarily of marketable securities (“Affiliated Entities”). We also had investments in unaffiliated partnerships, offshore funds and other entities of \$37.5 million and \$35.8 million at June 30, 2023, and December 31, 2022, respectively (“Unaffiliated Entities”). We evaluate each entity to determine its appropriate accounting treatment and disclosure. Certain of the Affiliated Entities, and none of the Unaffiliated Entities, are consolidated.

Investments in partnerships that are not required to be consolidated are accounted for using the equity method and are included in investments in partnerships on the condensed consolidated statements of financial condition. The Company had investments in Affiliated Entities totaling \$111.6 million and \$114.7 million at June 30, 2023 and December 31, 2022, respectively. The Company reflects the equity in earnings of these Affiliated Entities and Unaffiliated Entities as net gain/(loss) from investments on the condensed consolidated statements of income.

Capital may generally be redeemed from Affiliated Entities on a monthly basis upon adequate notice as determined in the sole discretion of each entity’s investment manager. Capital invested in Unaffiliated Entities may generally be redeemed at various intervals ranging from monthly to annually upon notice of 30 to 95 days. Certain Unaffiliated Entities and Affiliated Entities may require a minimum investment period before capital can be voluntarily redeemed (a “Lockup Period”). No investment in any Investment Partnership has an unexpired Lockup Period. The Company has no outstanding capital commitments to any Affiliated or Unaffiliated Entity.

#### *PMV Consumer Acquisition Corp.*

Commencing in August 2022, as a result of management and organization restructuring negotiations at the Sponsor to extend the life of PMV, AC no longer controlled Consolidated PMV. As a result, Consolidated PMV was deconsolidated from the financial statements. Prior to August 2022, AC consolidated the assets, liabilities and the results of operations of both PMV and Sponsor. AC invested \$4.0 million, or approximately 62% of the \$6.48 million total Sponsor partnership commitment. The Sponsor was managed primarily by AC executives. AC determined that the Sponsor was a variable interest entity (VIE) and that AC was the primary beneficiary and therefore consolidated the assets and liabilities and results of operations of the Sponsor. In addition, AC had determined that PMV was a VIE due to the lack of equity at risk and was consolidated by the Sponsor, who was deemed to be the primary beneficiary. Neither AC nor PMV had a right to the benefits from nor did it bear the risks associated with the marketable securities held in trust assets held by PMV.

*Variable Interest Entities*

With respect to the consolidated VIE, its assets may only be used to satisfy its obligations. The investors and creditors of any consolidated VIE have no recourse to the Company's general assets. In addition, the Company neither benefits from such VIE's assets nor bears the related risk beyond its beneficial interest in the VIE.

The following table presents the balances related to the VIE that is consolidated and included on the condensed consolidated statements of financial condition as well as the Company's net interest in the VIE (in thousands):

*Voting Interest Entities*

We have an investment partnership that is consolidated as a VIE for both 2023 and 2022 because AC has a controlling interest in the entity. This resulted in the consolidation of \$73.4 million of assets, \$3.9 million of liabilities, and \$6.6 million of redeemable noncontrolling interests at June 30, 2023 and \$75.6 million of assets, \$4.4 million of liabilities, and \$9.8 million of redeemable noncontrolling interests at December 31, 2022. AC's net interest in the consolidated VIE at June 30, 2023 and December 31, 2022 was \$62.9 million and \$61.4 million, respectively. Approximately \$3.2 million of redeemable noncontrolling interests tendered their shares in the entity in 2023.

*Equity Method Investments*

The Company's equity method investments include investments in partnerships and offshore funds. These equity method investments are not consolidated but on an aggregate basis exceed 10% of the Company's consolidated total assets or income.

**5. Fair Value**

Accounting Standards Codification Topic 820, Fair Value Measurement (ASC 820) specifies a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:

- Level 1 - Unadjusted quoted prices for identical instruments in active markets.
- Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable.
- Level 3 - Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

Inputs used to measure fair value might fall in different levels of the fair value hierarchy, in which case the Company defaults to the lowest level input that is significant to the fair value measurement in its entirety. These levels are not necessarily an indication of the risk or liquidity associated with the investments.

## 6. Income Taxes

The effective tax rate (“ETR”) for the six months ended June 30, 2023 and June 30, 2022 was 13.8% and 22.8%, respectively. The ETR in the year to date period of 2023 differs from the U.S. corporate tax rate of 21% primarily due to (a) deferred tax benefits from a foreign investment, (b) state and local taxes (net of federal benefit) and (c) the deductibility of officers' compensation. The ETR in the year to date period of 2022 differs from the standard corporate tax rate of 21% primarily due to (a) state and local taxes (net of federal benefit), (b) the dividends received deduction, (c) the deferred tax asset valuation allowances related to the carryforward of charitable contributions and (d) excluded income on certain consolidated entities. The decrease in the ETR for the six months ended June 30, 2023 was primarily due to deferred tax benefits from a foreign investment.

At June 30, 2023, the Company had net deferred tax assets, before valuation allowance of approximately \$7.2 million that were recorded within income taxes receivable in the condensed consolidated statements of financial condition. The Company believes that it is more-likely-than-not that the benefit from a portion of the shareholder-designated charitable contribution carryforwards will not be realized. In recognition of this risk, the Company has provided a valuation allowance of \$0.3 million and \$0.3 million as of June 30, 2023 and December 31, 2022, respectively, on the deferred tax assets related to these charitable contribution carryforwards.

As of and for the periods ended June 30, 2023 and December 31, 2022, the Company has not identified any uncertain tax positions.

The Company remains subject to income tax examination by the IRS for the years 2019 through 2021 and state examinations for years after 2016.

## 7. Earnings per Share

Basic earnings per share is computed by dividing net income/(loss) attributable to our shareholders by the weighted average number of shares outstanding during the period. Diluted earnings per share is computed by dividing net income/(loss) attributable to our shareholders by the weighted average number of shares, plus any potentially dilutive securities (if any), outstanding during the period.

The computations of basic and diluted net income/(loss) per share are as follows:

(In thousands, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,

## 8. Equity

### Voting Rights

The holders of Class A Common stock (“Class A Stock”) and Class B Common stock (“Class B Stock”) have identical rights except that holders of Class A Stock are entitled to one vote per share, while holders of Class B Stock are entitled to ten votes per share on all matters to be voted on by shareholders in general. Holders of each share class, however, are not eligible to vote on matters relating exclusively to the other share class.

### Stock Award and Incentive Plan

The Company’s Board of Directors periodically grants shares of Phantom Restricted Stock awards (“Phantom RSAs”). Under the terms of the grants, the Phantom RSAs vest 30% and 70% after three and five years, respectively. The Phantom RSAs will be settled by a cash payment, net of applicable withholding tax, on the vesting dates. In addition, an amount equivalent to the cumulative dividends declared on shares of the Company’s Class A common stock during the vesting period will be paid to participants on vesting.

The Phantom RSAs are treated as a liability because cash settlement is required and compensation will be recognized over the vesting period. In determining the compensation expense to be recognized each period, the Company will re-measure the fair value of the liability at each reporting date taking into account the remaining vesting period attributable to each award and the current market value of the Company’s Class A stock. In making these determinations, the Company will consider the impact of Phantom RSAs that have been forfeited prior to vesting (e.g., due to an employee termination). The Company has elected to consider forfeitures as they occur. Based on the closing price of the Company’s Class A Common Stock on June 30, 2023 and December 31, 2022, the total Phantom RSA liability recorded by the Company in compensation payable in our condensed consolidated statements of financial condition as of June 30, 2023 and December 31, 2022 was \$5.0 million and \$4.8 million, respectively.

The following table summarizes our stock-based compensation as well as unrecognized compensation for the three and six month periods ended June 30, 2023 and 2022, respectively. *Dividends*

**9. Goodwill**

At June 30, 2023, goodwill on the condensed consolidated statements of financial condition includes \$3.4 million of goodwill related to GCIA. The Company assesses the recoverability of goodwill at least annually, or more often should events warrant, using a qualitative assessment of whether it is more likely than not that an impairment has occurred to determine if a quantitative analysis is required. There were no indicators of impairment for the six months ended June 30, 2023 and 2022, and as such there was no impairment analysis performed or charge recorded.

## **10. Guarantees, Contingencies and Commitments**

From time to time, the Company may be named in legal actions and proceedings. These actions may seek substantial or indeterminate compensatory as well as punitive damages or injunctive relief. We are also subject to governmental or regulatory examinations or investigations. The examinations or investigations could result in adverse judgments, settlements, fines, injunctions, restitutions or other relief. For any such matters, the condensed consolidated financial statements include the necessary provisions for losses, if any, that the Company believes are probable and estimable. Furthermore, the Company evaluates whether losses exist which may be reasonably possible and will, if material, make the necessary disclosures. Management is not aware of any probable or reasonably possible losses at June 30, 2023.

The Company has also entered into arrangements with various other third parties, many of which provide for indemnification of the third parties against losses, costs, claims and liabilities arising from the performance of obligations under the agreements. The Company has had no claims or payments pursuant to these or prior agreements and believes the likelihood of a claim being made is remote, and, therefore, no accrual has been made on the condensed consolidated financial statements.

## ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS ("MD&A") OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Introduction

MD&A is provided as a supplement to, and should be read in conjunction with, the Company's unaudited interim consolidated financial statements and accompanying notes thereto included in this Quarterly Report on Form 10-Q, as well as the Company's audited annual financial statements included in our Form 10-K filed with the SEC on March 15, 2023 to help provide an understanding of our financial condition, changes in financial condition and results of operations. Unless the context otherwise requires, all references to "we," "us," "our," "AC Group" or the "Company" refer collectively to Associated Capital Group, Inc., a holding company, and its subsidiaries through which our operations are actually conducted.

### Overview

We are a Delaware corporation, incorporated in 2015, that provides alternative investment management services and operates a direct investment business that over time invests in businesses that fit our criteria. Additionally, we derive income from proprietary investments.

### Alternative Investment Management

We conduct our investment management activities through our wholly-owned subsidiary Gabelli & Company Investment Advisers, Inc. ("GCIA") and its wholly-owned subsidiary, Gabelli & Partners, LLC ("Gabelli & Partners"). GCIA is an investment adviser registered with the Securities and Exchange Commission ("SEC") under the Investment Advisers Act of 1940, as amended (the "Advisers Act"). GCIA and Gabelli & Partners together serve as general partners or investment managers to investment funds including limited partnerships and offshore companies (collectively, "Investment Partnerships"), and separate accounts. We primarily manage assets across a range of risk and event arbitrage portfolios and in equity event-driven value strategies. The business earns management and incentive fees from its advisory activities. Management fees are largely based on a percentage of assets under management ("AUM"). Incentive fees are based on a percentage of the investment returns of certain client portfolios.

We manage assets on a discretionary basis and invest in a variety of U.S. and foreign securities mainly in the developed global markets. We primarily employ absolute return strategies with the objective of generating positive returns. We serve a wide variety of investors globally including private wealth management clients, corporations, corporate pension and profit-sharing plans, foundations and endowments, as well as serving as sub-advisor to certain third-party investment funds.

In merger arbitrage, the goal is to earn absolute positive returns. We introduced our first limited partnership, Gabelli Arbitrage (renamed Gabelli Associates Fund), in February 1985. Our typical investment process begins at the time of deal announcement, buying shares of the target at a discount to the stated deal terms, earning the spread until the deal closes, and reinvesting the proceeds in new deals in a similar manner. By owning a diversified portfolio of transactions, we mitigate the adverse impact of single deal-specific risks.

As the business and investor base expanded, we launched an offshore version in 1989. Building on our strengths in global event-driven value investing, several investment vehicles have been added to balance investors' geographic, strategic and sector-specific needs. Today, we manage investments in multiple categories, including merger arbitrage, event-driven value and other strategies.

### Proprietary Capital

Proprietary capital is earmarked for our direct investment business that invests in new and existing businesses, using a variety of techniques and structures. We launched our direct private equity and merchant banking activities in August 2017. The direct investment business is developing along several core pillars including Gabelli Private Equity Partners, LLC and Gabelli Principal Strategies Group, LLC. Gabelli Private Equity Partners, LLC ("GPEP") was formed in August 2017 with \$150 million of authorized capital as a "fundless" sponsor.

Our direct investing efforts are organized to invest in various ways, including growth capital, leveraged buyouts and restructurings, with an emphasis on small and mid-sized companies. Our investment sourcing is across a variety of channels including direct owners, private equity funds, classic agents, and corporate carve outs (which are positioned for accelerated growth, as businesses seek to enhance shareholder value through financial engineering). The Company's direct investing vehicles allow us to acquire companies and create long-term value with no pre-determined exit timetable. We created Gabelli Principal Strategies Group, LLC ("GPS") in December 2015 to pursue strategic operating initiatives broadly.

We have a proprietary portfolio of cash and investments which we expect to use to invest primarily in funds that we will manage, provide seed capital for new products, expand our geographic presence, develop new markets and pursue strategic acquisitions and alliances.

In response to the invasion of Ukraine by Russia, economic sanctions were imposed on individuals and entities within Russia by governments around the world, including the U.S. and the European Union. Furthermore, a novel strain of coronavirus, and its variants, ("COVID-19") continue to disrupt global supply chains, adding broad inflationary pressures impacting companies worldwide. The resulting economic dislocations from the Ukraine-Russia conflict and the pandemic did not have a significant adverse impact on our AUM.

*Condensed Consolidated Statements of Income*

Investment advisory and incentive fees, which are based on the amount and composition of AUM in our funds and accounts, represent our largest source of revenues. Growth in revenues depends on good investment performance, which influences the value of existing AUM as well as contributes to higher investment and lower redemption rates and attracts additional investors while maintaining current fee levels. Growth in AUM is also dependent on being able to access various distribution channels, which is usually based on several factors, including performance and service. In light of the ongoing dynamics created by rising interest rates, high inflation, geo-political conflict, COVID-19 and the related impact on the global supply chain and banks, oil, travel and leisure, we could experience higher volatility in short term returns of our funds.

Incentive fees generally consist of an incentive allocation on the absolute gain in a portfolio generally equating to 20% of the economic profit, as defined in the agreements governing the investment vehicle or account. We recognize such revenue only when the measurement period has been completed generally in December or at the time of an investor redemption.

Compensation includes variable and fixed compensation and related expenses paid to officers, portfolio managers, sales, trading, research and all other professional staff. Variable compensation is paid to sales personnel and portfolio management and may represent up to 55% of revenues.

Management fee expense is incentive-based compensation equal to 10% of adjusted aggregate pre-tax profits paid to the Executive Chair or his designees for his services pursuant to an employment agreement.

Other operating expenses include general and administrative operating costs.

Other income and expense includes net gains and losses from investments (which include both realized and unrealized gains and losses from securities and equity in earnings of investments in partnerships), interest and dividend income, and interest expense. Net gains and losses from investments are derived from our proprietary investment portfolio consisting of various public and private investments and from consolidated investment funds.

Net income attributable to noncontrolling interests represents the share of net income attributable to third-party limited partners of certain partnerships and offshore funds we consolidate. Please refer to Notes 1 and 4 in our condensed consolidated financial statements included elsewhere in this report.

*Condensed Consolidated Statements of Financial Condition*

We ended the second quarter of 2023 with approximately \$870.1 million in cash and investments, net of securities sold, not yet purchased of \$3.9 million. This includes \$381.4 million of cash and cash equivalents; \$1.0 million of short-term U.S. Treasury obligations; \$210.3 million of securities, net of securities sold, not yet purchased, including shares of GAMCO with a market value of \$46.1 million; and \$277.4 million invested in affiliated and third-party funds and partnerships, including investments in affiliated closed end funds which have a value of \$58.0 million and more limited liquidity. Our financial resources provide flexibility to pursue strategic objectives that may include acquisitions, lift-outs, seeding new investment strategies, and co-investing, as well as shareholder compensation in the form of share repurchases and dividends.

Total shareholders' equity was \$899.6 million or \$41.41 per share as of June 30, 2023, compared to \$890.2 million or \$40.48 per share as of December 31, 2022. Shareholders' equity per share is calculated by dividing the total Associated Capital Group, Inc. equity by the number of common shares outstanding. The increase in equity from the end of 2022 was largely attributable to income for the year to date period.

**Three Months Ended June 30, 2023 Compared to Three Months Ended June 30, 2022**
**Overview**

Our operating loss for the quarter was \$3.5 million compared to \$2.2 million for the comparable quarter of 2022. The increase in operating loss was driven primarily by management fee expense of \$0.5 million in the 2023 period. There was no management fee expense in 2022 due to pre-tax losses. This increase was also driven by higher stock-based compensation expense of \$0.4 million, resulting from the new issuance of awards in Q2 2023 and a drop in AC's stock price in the Q2 2022 period. Other income was \$8.6 million in the 2023 quarter compared to a loss of \$35.9 million in the prior year's quarter primarily due to mark-to-market changes in our holdings of our securities portfolio, brought on by market appreciation in the current period versus market volatility that negatively impacted the second quarter 2022. The Company recorded income tax expense in the current quarter of \$1.8 million compared to a benefit of \$8.0 million in the prior year's quarter. Consequently, our current quarter net income was \$3.4 million, or \$0.15 per diluted share, compared to net loss of \$29.9 million, or \$(1.36) per diluted share, in the prior year's comparable quarter.

**Revenues**

Total revenues were \$2.4 million for the quarter ended June 30, 2023, roughly the same as the second quarter of 2022.

We earn advisory fees based on the average level of AUM in our products. Advisory and incentive fees were \$2.3 million for 2023, in line with the comparable quarter of 2022. Incentive fees are not recognized until the uncertainty surrounding the amount of variable consideration ends and the fee is crystalized, typically on an annual basis on December 31. There were no material unrecognized incentive fees for the quarter ended June 30, 2023 and 2022, respectively.

**Expenses**

Compensation, which include variable compensation, salaries, bonuses and benefits, was \$3.8 million and \$3.0 million for the three month periods ended June 30, 2023 and 2022, respectively. Fixed compensation, which includes salaries and benefits and stock based compensation, increased to \$2.9 million for the 2023 period from \$2.1 million in the prior year primarily driven by higher stock-based compensation expense. The remainder of the compensation expense represents variable compensation that fluctuates with management fee and incentive allocation revenues and gains on investment portfolios. Variable payouts as a percent of revenues are impacted by the mix of products upon which performance fees are earned and the extent to which they may exceed their allocated costs. For 2023, these variable payouts were \$0.9 million, roughly in line with the accrual for the second quarter of 2022.

## [Table of Contents](#)

Management fee expense represents incentive-based and entirely variable compensation in the amount of 10% of the aggregate pre-tax profits which is payable to Mario J. Gabelli pursuant to his employment agreement. Management fee expense of \$0.5 million was recorded for the three-month period ended June 30, 2023. No management fee expense was recorded for the three-month period ended June 30, 2022 due to the pre-tax loss.

Other operating expenses were \$1.5 million during the three months ended June 30, 2023 compared to \$1.8 million in the prior year's quarter.

### *Other*

Net gain/(loss) from investments is primarily related to the performance of our securities portfolio and investments in partnerships. Investment gains were \$3.3 million in the 2023 quarter versus losses of \$37.8 million in the comparable 2022 quarter, the increase driven by market appreciation in the current period compared to market volatility that negatively impacted Q2 2022 brought on by rising interest rates, geo-political factors and accelerating inflation.

Interest and dividend income increased to \$6.0 million in the 2023 quarter from \$1.9 million in the 2022 quarter primarily driven by increased interest income as a result of higher interest rates in 2023.

Shareholder-designated contributions in the 2023 quarter increased to \$0.5 million, driven by timing of contributions.

### *Income taxes*

Our income tax expense was \$1.8 million for the quarter compared to a benefit of \$8.0 million in the comparable period of 2022. The effective rate for the three months ended June 30, 2023 and June 30, 2022 was 35.8% and 21.1%, respectively. The difference in effective rate period over period is primarily driven by deferred taxes from a foreign investment which increased the current quarter's effective tax rate.

### *Overview*

Our operating loss for the year to date period was \$8.6 million compared to \$5.5 million for the comparable period of 2022. Other income was \$33.3 million in the 2023 period compared to a loss of \$51.0 million in the prior year period primarily due to mark-to-market changes in our holdings of our securities portfolio, brought on by market appreciation in the current period compared to market volatility that negatively impacted the first half of 2022. The Company recorded income tax expense in the current year to date period of \$3.4 million compared to a benefit of \$12.9 million in the prior period. Consequently, our year to date net income was \$21.1 million for 2023, or \$0.96 per diluted share, compared to net loss of \$46.1 million, or \$(2.09) per diluted share, in the prior year's comparable period.

The effective rate for the six months ended June 30, 2023 and 2022 was 13.8% and 22.8%, respectively. **ASSETS UNDER MANAGEMENT**

Our revenues are highly correlated to the level of assets under management and fees associated with our various investment products, rather than our own corporate assets. Assets under management, which are directly influenced by the level and changes of the overall equity markets, can also fluctuate through acquisitions, the creation of new products, and the addition of new accounts or the loss of existing accounts. Since various equity products have different fees, changes in our business mix may also affect revenues. At times, the performance of our equity products may differ markedly from popular market indices, and this can also impact our revenues.

Assets under management were \$1.5 billion as of June 30, 2023. The changes from December 31, 2022 and June 30, 2022 were primarily attributable to investor outflows and market decline.

The majority of our AUM have calendar year-end measurement periods, and our incentive fees are primarily recognized in the fourth quarter. Assets under management decreased on a net basis by \$250 million for the quarter ended June 30, 2023 due to net investor outflows of \$232 million, market depreciation of \$13 million and the impact of currency fluctuations of non-US dollar classes of investment funds of \$5 million.

**Liquidity and Capital Resources**

Our principal assets consist of cash and cash equivalents; short-term treasury securities; marketable securities, primarily equities, including 2.4 million shares of GAMCO; and interests in affiliated and third-party funds and partnerships. Although Investment Partnerships may be subject to restrictions as to the timing of distributions, the underlying investments of such Investment Partnerships are generally liquid, and the valuations of these products reflect that underlying liquidity.

We require relatively low levels of capital expenditures and have a highly variable cost structure where costs increase and decrease based on the level of revenues we receive. Our revenues, in turn, are highly correlated to the level of AUM and to investment performance. We anticipate that our available liquid assets should be sufficient to meet our cash requirements as we build out our operating business. At June 30, 2023, we had cash and cash equivalents of \$381.4 million. Investments in U.S. Treasury Bills of \$1.0 million and \$210.3 million of investments net of securities sold, not yet purchased of \$3.9 million. Net cash provided by investing activities was \$0.7 million primarily due to return of capital on securities of \$1.0 million and proceeds from sales of securities of \$0.8 million, partially offset by purchases of securities of \$1.1 million. Net cash used in financing activities was \$15.1 million resulting primarily from stock buyback payments of \$9.6 million, redemptions of redeemable noncontrolling interests of \$3.3 million and dividends paid of \$2.2 million.

Net cash provided by operating activities was \$29.3 million for the six months ended June 30, 2022 due to \$15.0 million of net decreases of securities and net distributions from investment partnerships and \$40.3 million of adjustments for noncash items, primarily losses on investment securities and partnership investments and deferred taxes and \$17.6 million of net receivables/payables, partially offset by our net loss of \$43.6 million. Net cash used in investing activities was \$2.9 million due to purchases of securities of \$4.3 million offset by return of capital on securities of \$1.3 million. For any such matters, the condensed consolidated financial statements include the necessary provisions for losses that we believe are probable and estimable. Furthermore, we evaluate whether there exist losses which may be reasonably possible and, if material, make the necessary disclosures. However, management believes such matters, both those that are probable and those that are reasonably possible, are not material to the Company’s condensed consolidated financial condition, operations, or cash flows at June 30, 2023. See also Note 10, *Guarantees, Contingencies and Commitments*, to the condensed consolidated financial statements in Part I, Item 1 of this Form 10-Q.
