## **1. Organization**

Unless we have indicated otherwise, or the context otherwise requires, references in this report to “Associated Capital Group, Inc.”, “Associated Capital”, “AC Group”, “the Company”, “AC”, “we”, “us” and “our” or similar terms are to Associated Capital Group, Inc., its predecessors and its subsidiaries.

We are a Delaware corporation that provides alternative investment management, and we derive investment income from proprietary investments of cash and other assets in our operating business.

Gabelli & Company Investment Advisors, Inc. (“GCIA”), a wholly-owned subsidiary of AC, and its wholly-owned subsidiary, Gabelli & Partners, LLC (“Gabelli & Partners”), collectively serve as general partners or investment managers to investment funds, including limited partnerships and offshore companies (collectively, “Investment Partnerships”) and separate accounts. We primarily manage assets across a range of risk and event arbitrage portfolios and in equity event-driven value strategies. The businesses earn management and incentive fees from their advisory activities. Management fees are largely based on a percentage of assets under management. Incentive fees are based on the percentage of the investment returns of certain clients’ portfolios. GCIA is an investment adviser registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940, as amended.

### *Basis of Presentation*

The unaudited interim condensed consolidated financial statements of AC Group included herein have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by GAAP in the United States for complete financial statements. The unaudited interim condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of financial position, results of operations and cash flows of the Company for the interim periods presented and are not necessarily indicative of a full year’s results. These interim condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2023.

The interim condensed consolidated financial statements include the accounts of AC Group and its subsidiaries. All intercompany transactions and balances have been eliminated. The details on the impact of consolidating certain partnership entities on the condensed consolidated financial statements can be seen in Note 4. Investment Partnerships and Other Entities.

For the three and six months ended June 30, 2024 and 2023, there were no items related to other comprehensive income.

### *Use of Estimates*

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported on the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

### *Recent Accounting Developments*

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. The amendments require disclosure of specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold and further disaggregation of income taxes paid for individually significant jurisdictions. The ASU is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. We are currently evaluating the impact that this guidance will have on the disclosures within our consolidated financial statements.

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280)*, which improves reportable segment disclosure requirements. The new standard will require enhanced disclosures about a public company’s significant segment expenses and more timely and detailed segment information reporting throughout the fiscal period, including for companies with a single reportable segment. The standard is effective for annual periods beginning after December 15, 2023 and interim periods beginning after December 15, 2024, and early adoption is permitted. We are currently evaluating the impact that this guidance will have on our consolidated financial statements and related disclosures.

#### 4. Investment Partnerships and Other Entities

The Company is a general partner or co-general partner of various affiliated entities whose underlying assets consist primarily of marketable securities (“Affiliated Entities”). The Company had investments in Affiliated Entities totaling \$102.0 million and \$107.4 million at June 30, 2024 and December 31, 2023, respectively. The Company also had investments in unaffiliated partnerships, offshore funds and other entities of \$38.6 million and \$35.6 million at June 30, 2024, and December 31, 2023, respectively (“Unaffiliated Entities”). We evaluate each entity to determine its appropriate accounting treatment and disclosure. Certain of the Affiliated Entities, and none of the Unaffiliated Entities, are consolidated.

Investments in partnerships that are not required to be consolidated are accounted for using the equity method and are included in investments in partnerships on the condensed consolidated statements of financial condition. The Company reflects the equity in earnings of these Affiliated Entities and Unaffiliated Entities as net gain/(loss) from investments on the condensed consolidated statements of income.

Capital may generally be redeemed from Affiliated Entities on a monthly basis upon adequate notice as determined in the sole discretion of each entity’s investment manager. Capital invested in Unaffiliated Entities may generally be redeemed at various intervals ranging from monthly to annually upon notice of 30 to 95 days. Certain Unaffiliated Entities and Affiliated Entities may require a minimum investment period before capital can be voluntarily redeemed (a “Lockup Period”). No investment in any Investment Partnership has an unexpired Lockup Period. The Company has no material outstanding capital commitments to any Affiliated or Unaffiliated Entity.

#### *Variable Interest Entity*

We have one investment partnership that is consolidated as a VIE as of June 30, 2024 and December 31, 2023 because AC is the primary beneficiary of the entity. With respect to the consolidated VIE, its assets may only be used to satisfy its obligations. The investors and creditors of the consolidated VIE have no recourse to the Company's general assets. In addition, the Company neither benefits from such VIE's assets nor bears the related risk beyond its beneficial interest in the VIE.

The following table presents the balances related to the VIE that is consolidated and included on the condensed consolidated statements of financial condition, as well as the Company's net interest in that VIE (in thousands):

#### *Voting Interest Entity*

We have one investment partnership that is consolidated as a VOE as of June 30, 2024 and December 31, 2023 because AC has a controlling interest in the entity. This resulted in the consolidation of \$70.6 million of assets, \$1.8 million of liabilities, and \$5.2 million of redeemable noncontrolling interests at June 30, 2024 and \$72.4 million of assets, \$1.4 million of liabilities, and \$5.6 million of redeemable noncontrolling interests at December 31, 2023. AC's net interest in the consolidated VOE at June 30, 2024 and December 31, 2023 was \$63.6 million and \$65.4 million, respectively.

#### *Equity Method Investments*

The Company's equity method investments include investments in partnerships and offshore funds. The Company evaluates each of its equity method investments to determine if any are significant as defined in the regulations applicable to smaller reporting companies promulgated by the SEC. As of and for the three and six months ended June 30, 2024, no individual equity method investment held by the Company met the significance criteria. As such, the Company is not required to present summarized income statement information for any of its equity method investments.

## 5. Fair Value

Accounting Standards Codification Topic 820, Fair Value Measurement (ASC 820) specifies a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:

- Level 1 - Unadjusted quoted prices for identical instruments in active markets.
- Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable.
- Level 3 - Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

Inputs used to measure fair value might fall in different levels of the fair value hierarchy, in which case the Company defaults to the lowest level input that is significant to the fair value measurement in its entirety. These levels are not necessarily an indication of the risk or liquidity associated with the investments.

The following tables present assets and liabilities measured at fair value on a recurring basis, unless otherwise noted, as of the dates specified (in thousands):

The following table presents additional information about assets measured at fair value on a recurring basis and for which the Company has utilized Level 3 inputs to determine fair value:

Assets:	Three Months Ended		Six Months Ended	
	June 30,	June 30,	June 30,	June 30,

Changes in net unrealized gain/(loss) included in Net gain/(loss) from investments related to level 3 assets still held as of the reporting date	\$ 100	\$ -	\$ 100	\$ (33)

Total realized and unrealized gains and losses for Level 3 assets are reported in net gain/(loss) from investments in the condensed consolidated statements of income.

During the three and six months ended June 30, 2024 and 2023, there were no transfers into or out of Level 3.

The Company uses a discounted cash flow analysis when determining the fair value of privately issued preferred securities of affiliated closed-end funds that are categorized as Level 3. Projected cash flows in the discounted cash flow analysis represent the relevant security's dividend rate plus the assumption of full principal repayment at the preferred security's earliest available redemption date.

The significant unobservable input used in the fair value measurement of each of the Company's investments in privately issued preferred securities of closed-end funds is the discount rate. The discount rate was determined using the interest rates of U.S. Treasury Bills that are held over a similar period as the preferred security. The discount rates used in the valuation of these investments as of June 30, 2024 ranged from 4.51% to 5.36% with a weighted average of 5.15% calculated based on the relative fair value. Significant changes in the discount rate could result in a significantly higher or lower fair value measurement of these Level 3 investments.

The Company uses the market approach as the valuation technique to value its investment in common stocks classified as Level 3, specifically considering recent transactions.

## 6. Income Taxes

The effective tax rate (“ETR”) for the six months ended June 30, 2024 and June 30, 2023 was 21.1% and 13.8%, respectively. The ETR in the year to date periods of 2024 and 2023 differ from the U.S. corporate tax rate of 21% primarily due to (a) deferred tax benefits from a foreign investment, (b) state and local taxes (net of federal benefit) and (c) the deductibility of officers' compensation. The increase in the ETR for the six months ended June 30, 2024 was primarily due to deferred tax benefits from a foreign investment which reduced the prior year's rate.

At June 30, 2024 the Company had net deferred tax assets, before valuation allowance of approximately \$6.5 million that were recorded within income taxes receivable in the condensed consolidated statements of financial condition. The Company believes that it is more-likely-than-not that the benefit from a portion of the shareholder-designated charitable contribution carryforwards will not be realized. In recognition of this risk, the Company has provided a valuation allowance of \$0.2 million and \$0.4 million as of June 30, 2024 and December 31, 2023, respectively, on the deferred tax assets related to these charitable contribution carryforwards.

As of and for the six month periods ended June 30, 2024 and December 31, 2023, the Company has not identified any uncertain tax positions.

The Company remains subject to income tax examination by the IRS for the years 2020 through 2022 and state examinations for years after 2017.

## 7. Earnings per Share

Basic earnings per share is computed by dividing net income/(loss) attributable to our shareholders by the weighted average number of shares outstanding during the period. Diluted earnings per share is computed by dividing net income/(loss) attributable to our shareholders by the weighted average number of shares, plus any potentially dilutive securities (if any), outstanding during the period.

The computations of basic and diluted net income per share are as follows:

(In thousands, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,

## 8. Equity

### *Voting Rights*

The holders of Class A Common stock (“Class A Stock”) and Class B Common stock (“Class B Stock”) have identical rights except that holders of Class A Stock are entitled to one vote per share, while holders of Class B Stock are entitled to ten votes per share on all matters to be voted on by shareholders in general. Holders of each share class, however, are not eligible to vote on matters relating exclusively to the other share class.

### *Stock Award and Incentive Plan*

The Company’s Board of Directors periodically grants shares of Phantom Restricted Stock awards (“Phantom RSAs”). Under the terms of the grants, the Phantom RSAs vest 30% and 70% after three and five years, respectively. The Phantom RSAs will be settled by a cash payment, net of applicable withholding tax, on the vesting dates. In addition, an amount equivalent to the cumulative dividends declared on shares of the Company’s Class A Stock during the vesting period will be paid to participants on vesting.

The Phantom RSAs are treated as a liability because cash settlement is required and compensation will be recognized over the vesting period. In determining the compensation expense to be recognized each period, the Company will re-measure the fair value of the liability at each reporting date taking into account the remaining vesting period attributable to each award and the current market value of the Company's Class A Stock. In making these determinations, the Company will consider the impact of Phantom RSAs that have been forfeited prior to vesting (e.g., due to an employee termination). The Company has elected to consider forfeitures as they occur.

Based on the closing price of the Company's Class A Stock on June 30, 2024 and December 31, 2023, the total liability recorded by the Company in compensation payable in our condensed consolidated statements of financial condition as of June 30, 2024 and December 31, 2023, with respect to the Phantom RSAs was \$3.3 million and \$3.5 million, respectively.

The following table summarizes our stock-based compensation as well as unrecognized compensation for the three and six month periods ended June 30, 2024 and 2023, respectively. Stock-based compensation expense is included in compensation expense in the condensed consolidated statements of income (dollars in thousands, unless otherwise noted):

	<b>Three Months Ended</b>		<b>Six Months Ended</b>

#### *Stock Repurchase Program*

In December 2015, the Board of Directors established a stock repurchase program ("Stock Repurchase Program") authorizing the Company to repurchase up to 500,000 shares of Class A Stock. On February 7, 2017, the Board of Directors reset the available number of shares to be purchased under the stock repurchase program to 500,000 shares. On August 3, 2017 and May 8, 2018, the Board of Directors authorized the repurchase of an additional 1 million and 500,000 shares, respectively. On February 6, 2024, the Board of Directors authorized the repurchase of an additional 350,000 shares. Our stock repurchase program is not subject to an expiration date.

The following table presents the Company's stock repurchase activity and remaining authorization:

#### *Dividends*

During the three and six-month periods ended June 30, 2024 and 2023, the Company declared dividends of \$0.10 per share to Class A and Class B shareholders.

#### **9. Goodwill**

At June 30, 2024 and December 31, 2023, goodwill on the condensed consolidated statements of financial condition includes \$3.4 million of goodwill related to GCIA. The Company assesses the recoverability of goodwill at least annually, or more often should events warrant, using a qualitative assessment of whether it is more likely than not that an impairment has occurred to determine if a quantitative analysis is required. There were no indicators of impairment for the three and six months ended June 30, 2024 or 2023, and as such there was no impairment analysis performed or charge recorded.

#### **10. Guarantees, Contingencies and Commitments**

From time to time, the Company may be named in legal actions and proceedings. These actions may seek substantial or indeterminate compensatory as well as punitive damages or injunctive relief. We are also subject to governmental or regulatory examinations or investigations. The examinations or investigations could result in adverse judgments, settlements, fines, injunctions, restitutions or other relief. For any such matters, the condensed consolidated financial statements include the necessary provisions for losses, if any, that the Company believes are probable and estimable. Furthermore, the Company evaluates whether losses exist which may be reasonably possible and will, if material, make the necessary disclosures. Management is not aware of any probable or reasonably possible losses.

The Company has also entered into arrangements with various other third parties, many of which provide for indemnification of the third parties against losses, costs, claims and liabilities arising from the performance of obligations under the agreements. The Company has had no claims or payments pursuant to these or prior agreements and believes the likelihood of a claim being made is remote, and, therefore, no accrual has been made on the condensed consolidated financial statements.

#### **11. Subsequent Events**

From July 1, 2024 to August 9, 2024, the Company repurchased 84,861 shares at an average price of \$31.43 per share.

## ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS ("MD&A") OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Introduction

MD&A is provided as a supplement to, and should be read in conjunction with, the Company's unaudited interim consolidated financial statements and accompanying notes thereto included in this Quarterly Report on Form 10-Q, as well as the Company's audited annual financial statements included in our Form 10-K filed with the SEC on March 21, 2024 to help provide an understanding of our financial condition, changes in financial condition and results of operations. Unless the context otherwise requires, all references to "we," "us," "our," "AC Group" or the "Company" refer collectively to Associated Capital Group, Inc., a holding company, and its subsidiaries through which our operations are actually conducted.

### *Overview*

We are a Delaware corporation, incorporated in 2015, that provides alternative investment management services and operates a direct investment business that over time invests in businesses that fit our criteria. Additionally, we derive income from proprietary investments.

### Alternative Investment Management

We conduct our investment management activities through our wholly-owned subsidiary Gabelli & Company Investment Advisers, Inc. ("GCIA") and its wholly-owned subsidiary, Gabelli & Partners, LLC ("Gabelli & Partners"). GCIA is an investment adviser registered with the Securities and Exchange Commission ("SEC") under the Investment Advisers Act of 1940, as amended (the "Advisers Act"). GCIA and Gabelli & Partners together serve as general partners or investment managers to investment funds, including limited partnerships and offshore companies (collectively, "Investment Partnerships") and separate accounts. We primarily manage assets across a range of risk and event arbitrage portfolios and in equity event-driven value strategies. The business earns management and incentive fees from its advisory activities. Management fees are largely based on a percentage of assets under management ("AUM"). Incentive fees are based on a percentage of the investment returns of certain client portfolios.

We manage assets on a discretionary basis and invest in a variety of U.S. and foreign securities mainly in the developed global markets. We primarily employ absolute return strategies with the objective of generating positive returns. We serve a wide variety of investors globally including private wealth management clients, corporations, corporate pension and profit-sharing plans, foundations and endowments.

In merger arbitrage, the goal is to earn absolute positive returns. We introduced our first limited partnership, Gabelli Arbitrage (renamed Gabelli Associates Fund), in February 1985. Our typical investment process begins at the time of deal announcement, buying shares of the target at a discount to the stated deal terms, earning the spread until the deal closes, and reinvesting the proceeds in new deals in a similar manner. By owning a diversified portfolio of transactions, we mitigate the adverse impact of single deal-specific risks.

As the business and investor base expanded, we launched an offshore version in 1989. Building on our strengths in global event-driven value investing, several investment vehicles have been added to balance investors' geographic, strategic and sector-specific needs. Today, we manage investments in multiple categories, including merger arbitrage, long/short value and other strategies.

### Proprietary Capital

Proprietary capital is earmarked for our direct investment business that invests in new and existing businesses, using a variety of techniques and structures. We launched our direct private equity and merchant banking activities in August 2017. The direct investment business is developing along several core pillars:

- Gabelli Private Equity Partners, LLC ("GPEP"), formed in August 2017 with \$150 million of authorized capital as a "fundless" sponsor.
- Gabelli Principal Strategies Group, LLC ("GPS") was created in December 2015 to pursue strategic operating initiatives broadly.

Our direct investing efforts are organized to invest in various ways, including growth capital, leveraged buyouts and restructurings, with an emphasis on small and mid-sized companies. Our investment sourcing is across a variety of channels including direct owners, private equity funds, classic agents, and corporate carve outs (which are positioned for accelerated growth, as businesses seek to enhance shareholder value through financial engineering). The Company's direct investing vehicles allow us to acquire companies and create long-term value with no pre-determined exit timetable.

We have a proprietary portfolio of cash and investments which we expect to use to invest primarily in funds that we will manage, provide seed capital for new products, expand our geographic presence, develop new markets and pursue strategic acquisitions and alliances.

## Financial Highlights

The following is a summary of the Company's financial performance for the quarters ended June 30, 2024 and 2023:

(\$000s except per share data or as noted)

	Second Quarter	
	2024	2023
AUM - end of period (in millions)	\$ 1,362	\$ 1,549
AUM - average (in millions)	\$ 1,446	\$ 1,640
Net income per share-diluted	\$ 0.14	\$ 0.15
Book value per share at June 30	\$ 42.87	\$ 41.41

### Condensed Consolidated Statements of Income

Investment advisory and incentive fees, which are based on the amount and composition of AUM in our funds and accounts, represent our largest source of revenues. Growth in revenues depends on good investment performance, which influences the value of existing AUM as well as contributes to higher investment and lower redemption rates and attracts additional investors while maintaining current fee levels. Growth in AUM is also dependent on being able to access various distribution channels, which is usually based on several factors, including performance and service. In light of the ongoing dynamics created by the conflicts in the Middle East and the Ukraine and their impact on the global economy and markets, we could experience higher volatility in the short-term returns of our funds.

Incentive fees generally consist of an incentive allocation on the absolute gain in a portfolio generally equating to 20% of the economic profit, as defined in the agreements governing the investment vehicle or account. We recognize such revenue only when the measurement period has been completed, generally in December or at the time of an investor redemption.

Compensation includes variable and fixed compensation and related expenses paid to officers, portfolio managers, sales, trading, research and all other professional staff. Variable compensation is paid to sales personnel and portfolio management and may represent up to 55% of revenues.

Management fee expense is incentive-based compensation equal to 10% of adjusted aggregate pre-tax profits paid to the Executive Chair or his designees for his services pursuant to an employment agreement.

Other operating expenses include general and administrative operating costs.

Other income and expense includes net gains and losses from investments (which include both realized and unrealized gains and losses from securities and equity in earnings of investments in partnerships), interest and dividend income, and interest expense. Net gains and losses from investments are derived from our proprietary investment portfolio consisting of various public and private investments and from consolidated investment funds.

Net income attributable to noncontrolling interests represents the share of net income attributable to third-party limited partners of certain partnerships and offshore funds we consolidate. Please refer to Notes 1 and 4 in our condensed consolidated financial statements included elsewhere in this report.

### Condensed Consolidated Statements of Financial Condition

We ended the second quarter of 2024 with approximately \$880.6 million in cash and investments, net of securities sold, not yet purchased of \$6.4 million. This includes \$341.3 million of cash and cash equivalents; \$46.1 million of U.S. Treasury obligations; \$223.7 million of securities, net of securities sold, not yet purchased, including shares of GAMCO Investors, Inc. ("GAMCO") with a market value of \$57.3 million; and \$269.5 million invested in affiliated and third-party funds and partnerships, including investments in affiliated closed end funds which have a value of \$55.0 million and more limited liquidity. Our financial resources provide flexibility to pursue strategic objectives that may include acquisitions, lift-outs, seeding new investment strategies, and co-investing, as well as shareholder compensation in the form of share repurchases and dividends.

Total shareholders' equity was \$915.5 million or \$42.87 per share as of June 30, 2024, compared to \$907.0 million or \$42.11 per share as of December 31, 2023. Shareholders' equity per share is calculated by dividing the total equity by the number of common shares outstanding. The increase in equity from the end of 2023 was largely attributable to income for the year to date period.

### *Three Months Ended June 30, 2024 Compared to Three Months Ended June 30, 2023*

#### *Revenues*

Total revenues in the second quarter were \$2.6 million compared to \$2.4 million in the second quarter of 2023. Revenues generated by the GAMCO International SICAV – GAMCO Merger Arbitrage (the “SICAV”) were \$1.3 million versus \$1.0 million in the prior year period. All other revenues were \$1.3 million compared to \$1.4 million in the year-ago quarter.

Starting in December 2023, the SICAV revenue recognized by the Company for its services increased to 100% of the revenues received by Gabelli Funds, LLC. In turn, AC now pays the marketing expenses of the SICAV that were previously paid by Gabelli Funds and remits an admin fee to GAMCO for administrative services provided to the SICAV. This change better aligns the financial arrangements with the services rendered by each party. The net effect of this change did not have a material impact on our operating results.

Incentive fees are not recognized until the uncertainty surrounding the amount of variable consideration ends and the fee is crystalized, typically on an annual basis on December 31. There were no material unrecognized incentive fees for the quarters ended June 30, 2024 and 2023.

### *Expenses*

Compensation, which includes variable compensation, salaries, bonuses and benefits, was \$3.9 million and \$3.8 million for the three month periods ended June 30, 2024 and 2023, respectively, primarily driven by higher stock-based compensation expense in 2024 offset partially by lower variable based compensation expense in 2024 driven by lower average AUM.

Management fee expense represents incentive-based and entirely variable compensation in the amount of 10% of income before management fee and income taxes and excluding the impact of consolidating entities and is payable to Mario J. Gabelli, Executive Chair, or his designee pursuant to his employment agreement. Management fee expense of \$0.4 million was recorded for the three-month period ended June 30, 2024 compared to \$0.5 million for the three-month period ended June 30, 2023.

Other operating expenses were \$1.9 million during the three months ended June 30, 2024 compared to \$1.5 million in the prior year's quarter driven primarily by marketing expenses on the newly realigned SICAV.

### *Other*

Net gain/(loss) from investments is primarily related to the performance of our securities portfolio and investments in partnerships. Investment losses were \$0.2 million in the 2024 quarter compared to gains of \$3.3 million in the comparable 2023 quarter.

Interest and dividend income increased to \$7.9 million in the 2024 quarter from \$6.0 million in the 2023 quarter primarily driven by increased interest income as a result of higher sustained interest rates in the 2024 quarter.

Shareholder-designated contributions in the 2024 quarter decreased to \$0.4 million compared to \$0.5 million in the prior year's quarter, driven by timing of contributions.

### *Income taxes*

The effective tax rate for the three months ended June 30, 2024 and 2023 was 19.1% and 35.8%, respectively. The difference in effective tax rate period over period is primarily driven by deferred tax benefits from a foreign investment which reduced the current quarter's effective tax rate.

### ***Six Months Ended June 30, 2024 Compared to Six Months Ended June 30, 2023***

#### *Revenues*

Total revenues for the six months ended June 30, 2024 were \$5.6 million compared to \$4.8 million in the six months ended June 30, 2023. Revenues generated by the GAMCO International SICAV – GAMCO Merger Arbitrage (the "SICAV") were \$3.0 million versus \$2.1 million in the prior year period. All other revenues were \$2.6 million compared to \$2.7 million in the year-ago quarter driven by lower average AUM in 2024.

Starting in December 2023, the SICAV revenue recognized by the Company for its services increased to 100% of the revenues received by Gabelli Funds, LLC. In turn, AC now pays the marketing expenses of the SICAV that were previously paid by Gabelli Funds and remits an admin fee to GAMCO for administrative services provided to the SICAV. This change better aligns the financial arrangements with the services rendered by each party.

#### *Expenses*

Compensation, which includes variable compensation, salaries, bonuses and benefits, was \$7.8 million and \$7.4 million for the six month periods ended June 30, 2024 and 2023, respectively, primarily driven by higher stock-based compensation expense in 2024, offset partially by lower variable based compensation expense.

Management fee expense represents incentive-based and entirely variable compensation in the amount of 10% of income before management fee and income taxes and excluding the impact of consolidating entities and is payable to Mario J. Gabelli, Executive Chair, or his designee pursuant to his employment agreement. Management fee expense was \$2.4 million and \$3.1 million for the six month periods ended June 30, 2024 and 2023, respectively.

Other operating expenses were \$4.1 million during the six months ended June 30, 2024 compared to \$3.0 million in the prior year period driven primarily by marketing expenses on the newly realigned SICAV.

## Other

Net gain/(loss) from investments is primarily related to the performance of our securities portfolio and investments in partnerships. Investment gains were \$16.6 million in the 2024 period compared to \$23.8 million in the 2023 period.

Interest and dividend income increased to \$13.8 million in the 2024 period from \$11.2 million in the 2023 period primarily driven by increased interest income as a result of higher sustained interest rates in the 2024 period.

Shareholder-designated contributions for the six months ended June 30, 2024 decreased to \$0.4 million compared to \$1.4 million in the prior year period, driven by timing of contributions.

## Income taxes

The effective tax rate for the six months ended June 30, 2024 and 2023 was 21.1% and 13.8%, respectively. The difference in effective tax rate period over period is primarily driven by deferred tax benefits from a foreign investment which reduced the prior year's effective tax rate.

## ASSETS UNDER MANAGEMENT

Our revenues are highly correlated to the level of assets under management and fees associated with our various investment products, rather than our own corporate assets. Assets under management, which are directly influenced by the level and changes of the overall equity markets, can also fluctuate through acquisitions, the creation of new products, and the addition of new accounts or the loss of existing accounts. Since various equity products have different fees, changes in our business mix may also affect revenues. At times, the performance of our equity products may differ markedly from popular market indices, and this can also impact our revenues.

Assets under management were \$1.4 billion as of June 30, 2024 compared to \$1.6 billion at December 31, 2023. The decrease from year-end was primarily attributable to investor outflows.

### Fund flows for the three months ended June 30, 2024 (in millions):

	March 31, 2024	Market Appreciation/ (Depreciation)	Foreign Currency <sup>(1)</sup>	Net Inflows/ (Outflows)	June 30, 2024

Total AUM	<u>\$ 1,549</u>	<u>\$ (31)</u>	<u>\$ (4)</u>	<u>\$ (152)</u>	<u>\$ 1,362</u>

(1) Reflects the impact of currency fluctuations of non-US dollar denominated classes of investment funds.

The majority of our AUM have calendar year-end measurement periods, and our incentive fees are primarily recognized in the fourth quarter. Assets under management decreased on a net basis by \$187 million for the quarter ended June 30, 2024 due to net investor outflows of \$152 million, market depreciation of \$31 million and the impact of currency fluctuations in non-US dollar denominated classes of investment funds of \$4 million.

## Liquidity and Capital Resources

Our principal assets consist of cash and cash equivalents; treasury securities; marketable securities, primarily equities, including 2.4 million shares of GAMCO; and interests in affiliated and third-party funds and partnerships. Although Investment Partnerships may be subject to restrictions as to the timing of distributions, the underlying investments of such Investment Partnerships are generally liquid, and the valuations of these products reflect that underlying liquidity.

Summary cash flow data is as follows (in thousands):

	Six Months Ended	
	June 30,	
	2024	2023
Cash flows provided by (used in):		
Operating activities	\$ 28,623	\$ 179,403
Investing activities	(640)	676
Financing activities	(8,662)	(15,058)
Net increase in cash, cash equivalents and restricted cash	19,321	165,021
Cash, cash equivalents and restricted cash at beginning of period	347,057	221,269
Cash, cash equivalents and restricted cash at end of period	\$ 366,378	\$ 386,290

We require relatively low levels of capital expenditures and have a highly variable cost structure where costs increase and decrease based on the level of revenues we receive. Our revenues, in turn, are highly correlated to the level of AUM and to investment performance. We anticipate that our available liquid assets should be sufficient to meet our cash requirements as we build out our operating business. At June 30, 2024, we had cash and cash equivalents of \$341.3 million, Investments in U.S. Treasury Bills of \$46.1 million and \$223.7 million of investments net of securities sold, not yet purchased of \$6.4 million. Included in cash and cash equivalents as of June 30, 2024 is \$3.5 million which is held by consolidated investment funds and may not be readily available for the Company to access.

Net cash provided by operating activities was \$28.6 million for the six months ended June 30, 2024. Operating cash flows in 2024 are driven by our net income of \$16.8 million, \$22.9 million of net decreases in securities, and net distributions from investment partnerships of \$4.1 million. These were offset partially by adjustments for noncash items, primarily gains on investments securities and partnership investments and deferred taxes of \$13.8 million, and \$1.4 million of net receivables/payables. Net cash used in investing activities was \$0.6 million primarily due to purchases of securities of \$5.0 million, partially offset by proceeds from sales of securities of \$3.5 million and return of capital on securities of \$0.9 million. Net cash used in financing activities was \$8.7 million resulting primarily from stock buyback payments of \$6.2 million, dividends paid of \$2.1 million and redemptions of redeemable noncontrolling interests of \$0.4 million.

Net cash provided by operating activities was \$179.4 million for the six months ended June 30, 2023 due to \$186.3 million of net decreases of securities and net distributions from investment partnerships and our net income of \$21.3 million, partially offset by \$19.4 million of adjustments for noncash items, primarily gains on investments securities and partnership investments and deferred taxes and \$8.8 million of net receivables/payables. Net cash provided by investing activities was \$0.7 million primarily due to return of capital on securities of \$1.0 million and proceeds from sales of securities of \$0.8 million, partially offset by purchases of securities of \$1.1 million. Net cash used in financing activities was \$15.1 million resulting primarily from stock buyback payments of \$9.6 million, redemptions of redeemable noncontrolling interests of \$3.3 million and dividends paid of \$2.2 million.

## Critical Accounting Policies and Estimates

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from those estimates. See Note 1 and the Company's Critical Accounting Policies in Management's Discussion and Analysis ("MD&A") of Financial Condition and Results of Operations in AC's 2023 Annual Report on Form 10-K filed with the SEC on March 21, 2024 for details on Critical Accounting Policies.

For any such matters, the condensed consolidated financial statements include the necessary provisions for losses that we believe are probable and estimable. Furthermore, we evaluate whether there exist losses which may be reasonably possible and, if material, make the necessary disclosures. However, management believes such matters, both those that are probable and those that are reasonably possible, are not material to the Company's condensed consolidated financial condition, operations, or cash flows at June 30, 2024.
